CREATE A GREAT ROOM.

In Walnut Grove, we have combined flowing lines inspired by modern design with sophisticated handwork that beautifully showcase the furniture-maker's art. Contours are carefully sculpted, and structural elements are set apart to incorporate air and create a floating lightness.

We've crafted each piece from solid American black walnut and hand-applied a transparent finish that reveals the grain in all its beauty and complexity. Natural variations, from differences in grain pattern to a deepening of color over time, mean that pieces will vary slightly in tone—a mark of authenticity in the very best solid wood furniture. Walnut Grove is a visually rich collection that seems to have traveled directly from the craftsman's bench to your home!
